

Piedmont Road Complete Street

Current as of 5/22/20

PROJECT TIMELINE

2017 Buckhead CID requests funding from both the City of Atlanta Renew Infrastructure program and the Atlanta Regional Commission, both of which provided significant amounts for the project.

2018 Buckhead CID hires transportation engineering firm Croy Engineering to design the project and develop construction plans in order to bid out to contractors.

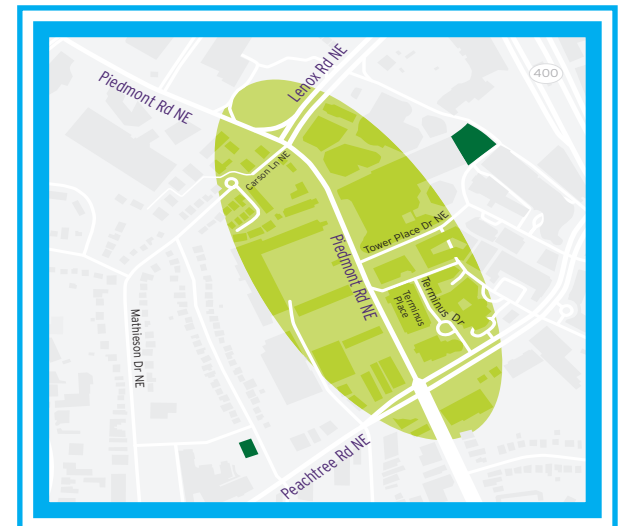

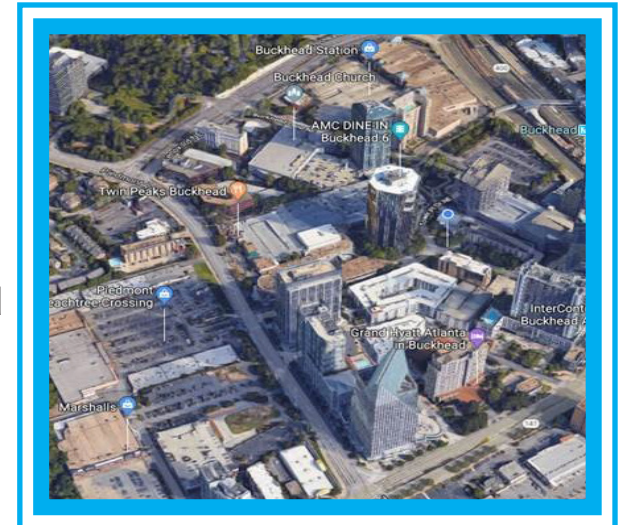

2019 Buckhead CID board of directors unanimously approved the use of CID funds for remaining funding required to fully fund the project's construction.

About the Project

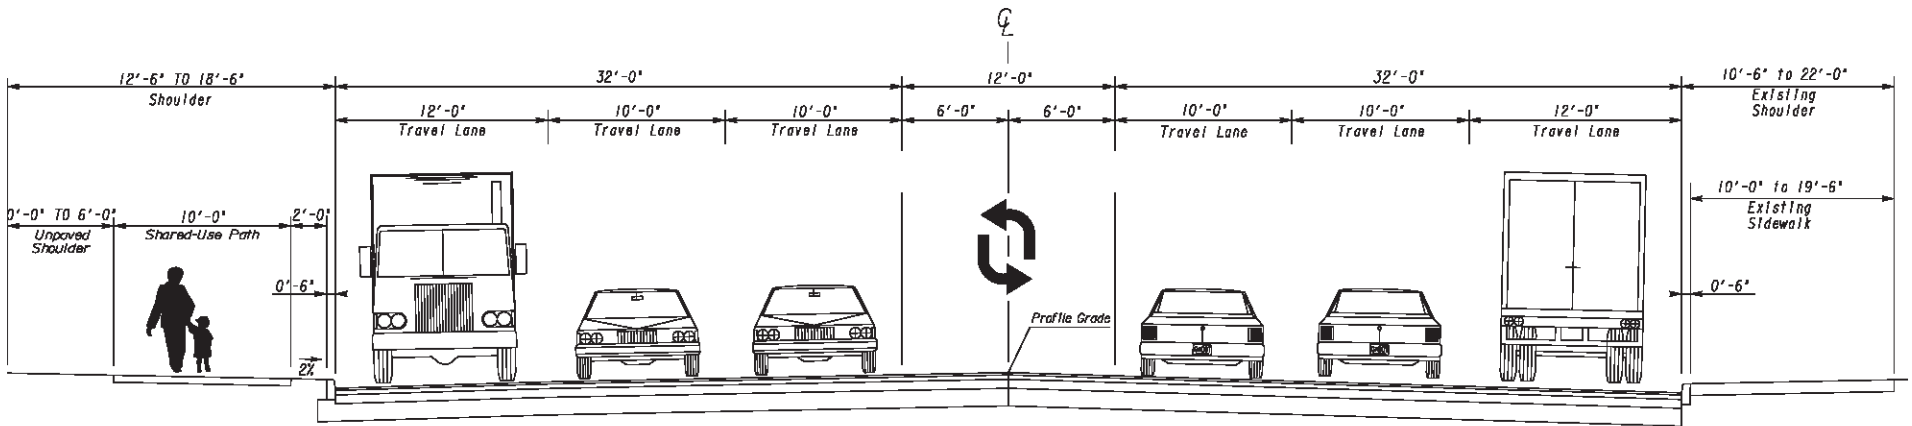

Per the recommendations of the 2008 Piedmont Area Transportation Study, the Buckhead CID is working to widen Piedmont Road from Peachtree Road to Lenox Road. The CID has developed a concept that will enhance pedestrian and cycling mobility while expanding Piedmont Road to better accommodate traffic flow by expanding to three lanes in each direction and creating a dedicated left turn lane.

Project Status

The engineering design will be complete in late summer 2020. The right of way acquisition will start in May 2020 and construction will begin in the summer of 2021.

PIEDMONT ROAD COMPLETE STREET
