

# Wieuca Road Roundabout

Current as of 5/22/20

## About the Project

In 2015, the Buckhead CID hired consultants to study the traffic impacts of new development around the intersection of Wieuca Road and Phipps Boulevard where traffic regularly backs up every rush hour. The goal was to identify possible traffic and safety improvements for drivers and alternative travel modes. The results of this analysis included recommendations for improvements to roadway turning movements, the intersection design of Wieuca Road at Phipps Boulevard and improved pedestrian crosswalks. The best application to address all of these recommendations was a roundabout.

## Project Status

The engineering design is 50% complete. The right of way acquisition is scheduled to begin in November 2021 and construction is scheduled to begin in Q4 of 2021.

2016

---

Buckhead CID hires transportation engineering firm Pond & Company to complete the design of the project.

2017

Buckhead CID is successful in securing City of Atlanta Renew Infrastructure Program funds to complete the utility relocations, right-of-way acquisition and the project's construction.

2019

Buckhead CID and City of Atlanta present the project's final conceptual design to the Buckhead community.
