

# Piedmont Road Complete Street

Current as of 11/1/21

## PROJECT TIMELINE

2017

Buckhead CID requests funding from both the City of Atlanta Renew Infrastructure program and the Atlanta Regional Commission, both of which provided significant amounts for the project.

2018

Buckhead CID hires transportation engineering firm Croy Engineering to design the project and develop construction plans in order to bid out to contractors.

2019

Buckhead CID board of directors unanimously approved the use of CID funds for remaining funding required to fully fund the project's construction.

## About the Project

Per the recommendations of the 2008 Piedmont Area Transportation Study, the Buckhead CID is working to widen Piedmont Road from Peachtree Road to Lenox Road. The CID has developed a concept that will enhance pedestrian and cycling mobility while expanding Piedmont Road to better accommodate traffic flow by expanding to three lanes in each direction and creating a dedicated left turn lane.

## Project Status

Construction will begin in early 2022.
